APPROVE COLLEGE CONSERVATION PLAN

BOARD OF REGENTS GIVE UNANIMOUS COMMENDATION.

ROUTINE WORK SETTLED

Other Things for General Welfare of School to be Brought into Action Later.

Unanimous approval was given yesterday by the board of regents of the State Teachers college to the action of President Richardson in his rules made for fuel conservation and continuing to keeping the school open.

About five weeks ago, and just after the beginning of the coal strike, President Richardson cancelled all night meetings of any kind at the college and took further steps to conserve fuel. There has been rearrangements of rooms and classes and consolidation of meetings in the building which have been heat savers and every effort has been made to keep the college on comfortable arrangements with a minimum of heat.

Yesterday morning President Richardson announced half day sessions beginning at 12:30 o'clock and ending at 4:30, with 35 minute classes. All these arrangements were unanimously approved and commended by the board of regents at their meeting yesterday. The members present were T. D. Parr of Hamilton, G. W. Gromer of Pattonsburg, State Superintendent of schools, S. A. Baker, of Jefferson City and W. A. Blagg of Maryville.

The appointments to the faculty which had been made by President Richardson since the last session of the board were also approved.

Various matters for the general welfare of the school were brought before the board and the approval of bills paid and direction of payment of others occupied the remainder of the session

UNUSUALLY FINE SHOWING AT POULTRY EXHIBIT

Quality of Birds Better than Previous Years. Entries Still Coming in Are Being Judged.

Several more entries have been brought into the poultry exhibit in the Zook building on South Main street where the annual showing of the North west Missouri Poultry association is being held.

These entries are:

Mrs. J. Beasinger of Stanberry, pen Rhode Island Reds.

A. C. Hinderks, Stewartsville, 7 Brown Leghorns.

Miss Frona Stevenson, Maryville 5 Barred Rocks and 4 Pelan ducks.

The ducks shown by Miss Stevenson are unusually fine speciments and attracting much attention. They are 16 weeks old and average 7 3-4 pounds. Several shipments are on the way and expected to arrive some time this evening. The delay in train service has hindered the entries from arriving on the opening day.

The quality of the birds shown this year is remarkably fine and the number is very large considering the difficulty experienced in express shipments.

The judging of the fowls will be completed by tomorrow.

OVERHEATED FLUE CAUSES FIRE AT MRS. WM. WOODARDS

Fire this morning about 9 o'clock damaged the roof of the home of Mrs. William Woodard at 1222 East Third street. The damage will amount to $200. It was caused by an over heated defective flue.

114 MASSACHUSETTS CITIES VOTE WET YESTERDAY.

Boston, Dec. 10.—Returns today from fifteen Massachusetts cities, holding elections yesterday, showed all except Melrose had swung into the "wet" column. This supplemented the license victory of December 2 when 20 cities went wet.

DISPATCH REPLY TO ALLIED NOTE TOMORROW.

Berlin, Dec. 10.—Germany's reply to the latest Allied note demanding that Germany sign the peace treaty protocol probably will be dispatched tomorrow, it was announced today.

Officials Leave Paris.

Paris, Dec. 10.—Assistant Secretary of State Polk, Henry White and Gen-

WEATHER BUREAU SAYS IT WAS REALLY COLD TODAY

December Records for Zero Temperature Smashed This Morning at 21 Below.

For a second time the December cold record was smashed when the thermometers dropped to 21 below zero this morning. Yesterday morning at 9 below, was the coldest day for that early in the month, in the twenty five years the weather records have been kept with the exception of Dec. 6, 1901 when the temperature was 13 below. On December 19 of that same year, the registration was 3 below zero.

There has only been three times in the past twenty five years that the temperature [illegible] colder than today. These th[illegible] on January 26 1912, at 28 bel[illegible] Feb. 13, 1905, when it was 25 d[illegible]ow and Feb 12, 1899 at 28 belo[illegible]

There is no imm[illegible]ef from the cold in sight acco[illegible]eather indications. The predic[illegible] call for several days more of the same brand, with possible warmer weather by Friday or Saturday.

The cold weather has made all of the trains very late. No. 11 passenger train from the east was over six hours late this morning. No. 12 on the Wabash, the east bound train was three hours late.

Chicago, Dec. 10.—Temperatures ranging from zero to 34 below were prevalent throughout the Mississippi Valley and Rocky Mountain states today. The extreme cold was accompanied in some sections by storms. In many areas a deep snow is on the ground.

HENRY L. HOWARD, 42, DIES THIS MORNING

Death Follows a Two Days Illness. Brother of Albert Howard and Mrs A. M. Hahn of this City.

Henry L. Howard, 42 years old a resident of Nodaway county all of his life with the exception of one year, died this morning at 5:30 o'clock at his home, 4 miles north of Maryville, after a two days illness of kidney trouble. Mr. Howard was born and reared on the farm where he died. He is survived by his wife and five children, Mrs. Clint Buckallew, living near Burlington Junction, and Frank, Bernice, Edith and Mary, all living at home. Other surviving relatives are his parents, Mr. and Mrs. Ben Howard of Maryville, three sisters, Mrs. Mose Hahn of Maryville, Mrs J. B. Pride, Edmond, Okla., and Mrs. John Mathold of Hydro, Okla., and three brothers, Albert Howard of this city, Harry Howard of Amarillo, Tex., and C. M. Howard of St. Joseph. The arrangements for the funeral will not be completed until word is received from the brothers and sisters living at a distance.

TWO SHAFTS TO BE SUNK AT QUITMAN MINES TODAY

One on F. M. Ryan, Other on Jobe Williams Farm. Impossible to get Coal before Middle of Next Week.

It will be impossible to have coal from the Quitman mines Saturday as the company expected on account of the extreme cold weather and the lack of some necessary tools which have been ordered but have not come. The foreman of construction, J. J. Gillinger, however, expects to be mining coal by the middle or last of next week.

The sites for the shafts have been selected and work is being started. One shaft will be sunk on the F. M. Ryan place directly east of the Quitman school house. The other will be a quarter of a mile north of that on the Jobe Williams farm.

A gang of miners will be started in as soon as the machinery can be obtained and both mines will be operated at the same time.

AUSTRALIAN AIR MAN WINS $50,000 PRIZE

Port Darwin, South Australia, Dec. 10.—Captain Smith, Australian aviator arrived here today winning the $50,000 prize for the first flight from England to Australia.

Sally Ann Armstrong.

Mr. and Mrs. N. W. Armstrong of Hayword, Calif., announce the birth, Friday, December 5, of their third daughter, whom they have named Sally Ann. Mrs. Armstrong will be remembered as Miss La Vera M. Condon of Maryville.

Lyle-Wallace Marriage License Issued

License to marry was issued in St. Joseph yesterday to Mrs. Ola Thornhill Lyle and O. O. Wallace, both of

49 VOLUNTEERS CUT CITY TIMBER TODAY

FROZEN TOES AND FINGERS EVIDENT BUT SPIRITS HIGH.

GANG WORKS TOMORROW

Are Cutting on Beal Land East of City Will Work Thursday and Friday

Forty-nine men are at the Beal timber east of the city today cutting and chopping wood for the city wood yard. Two men were sent home at noon, one with frozen fingers and another with frozen toes. Some of the captains are of the opinion that an expert adding machine will be needed tonight to count the total frozen digits, but the men are handling axes and saws with a spirit that is miles above the freezing point and are doing a vast amount of work.

There are six gangs working under the direction of C. F. Remus, Neil Somerville, J. F. Dowden, Prof. Ed Hall, N. H. Brown, Fred Smith and Theodore Robinson. The original plan was to have each captain bring five men but many others volunteered and brought the total up to 49.

Drags cut through the snow drifts yesterday afternoon, which were very high in places, and made the road ready for travel this morning.

At noon F. P. Reuillard served hot lunch on the grounds to all the workers.

Gangs of men under the same arrangements will work tomorrow and Friday cutting on the Beal land.

PLACES OF MID-WEEK CHURCH SERVICE ANNOUNCED.

The First Methodist Church prayer meeting will be held tonight at 7:30 o'clock at the homes of Mr. and Mrs. R. S. Braniger, 616 North Buchanan street; Mrs. Catherine Miller, 537 W 2nd street; and Miss Audrey Howendobler, 401 S. Buchanan street. The young people and the State Teachers college students will meet at Perrin Hall. There will be some songs, a short talk by Prof. Harry A. Miller and a social hour.

The following places have been announced for the Christian church prayer meeting: 1st ward, Mr. and Mrs. E. F. Hamlin, 411 E 6th street; W. C. Frank, leader; 2nd ward, Mr. and Mrs Dick Strong, 623 N Buchanan street, Alex Holt, leader; 3rd ward, Mr. and Mrs. Fred Miller, 404 W 1st street, Rev R. E. Snodgrass, leader; 4th ward, Mr. and Mrs. W. E. Goforth, 1003 E 3rd street, Mr Goforth leader.

The South Methodist prayer meeting will be held at 7:30 o'clock at the home of Mrs M. E. Farrar, 107 North Buchanan street.

The First Baptist church announces the following places: 1st ward, home of Clyde Bliss, 506 T 2nd street; 2nd ward, home of W. A. Burris, 304 West 7th; 3rd ward, Mrs. Yeo, 315 W Thompson; 4th ward, at the home of Mrs. Arthur Warner, 121 South Hester St., and at the home of Miss Mollie Henderson, 120 E Torrance street. Two places are arranged for the 4th ward on account of the numbers to attend and the distance of walking.

FROE WATER MAIN CRIPPLES LINE OF SERVICE.

One of the water mains supplying the southeast business section of the city, was frozen this morning. It caused considerable trouble, both to the water company and to the consumers on the line.

PUBLISHERS PLAN TO DEVELOP WATER POWER.

New York.—Steps have been taken to form an association to work for the development of the water power facilities of the United States. The plan was discussed at a luncheon that was attended by L. B. Palmer, manager of the American Newspaper Publishers' Association; George Foster Peabody, Charles H. Ingersoll, manufacturer; E. K. Hall, vice-president of the American Telephone and Telegraph Company, and Dr. Edward G. Acheson, scientist.

It was estimated that unused water power facilities in the country have a potential product of 100,000,000 horsepower yearly, valued at $5,000,000,000. The discussion was an outgrowth of the recent meeting of the newspaper publishers, at which the newsprint shortage caused grave concern.

Mr. and Mrs. C. J. Bailey of Duluth, Minn., who have been visiting for several days at the home of Mr. and Mrs. H. A. Younke, southeast of Maryville, left Tuesday evening for their home.

JENKINS CASE NOT REGARDED AS LAST STRAW BY MEXICO

Mexican Minister of Finance Doubts Use of it as Pretext for Armed Intervention.

Mexico, gCity, Dec. 10.—Knowing President Wilson's attitude and policy toward Mexico, I don't believe the Jenkins case will be used as a pretext for armed intervention by the United States," was the declaration of Cabrra, minister of finance today.

PLANETS HOLD RARE POSITION DEC. 17

ASTRONOMERS SAY NO DIRE RESULTS FOLLOW PHENOMENON

CAUSE EXTREME COLD

Six Planets Occupy Space in Same Direcrion from Sun in Unusual Grouping

Plainview, Tex.—According to Prof. O. H. Truman of the Lowel Observatory at Flagstaff, Ariz., regarded for his astronomical knowledge, no such dire calamity will befall the people of the earth in December as was recently predicted in a widely published statement by a meteorological scientist. The basis of this prediction was that during December several large planets would occupy a position in the same direction from the sun. In response to an inquiry by a citizen of Planview, Prof. Truman writes:

"It is a fact that on Dec. 17, and for some days before and after that date, six of the planets, Neptune, Saturn, Jupiter, Mars, Mercury, Sat-Venus, will be roughly in the same direction from the sun, Uranus in the opposite direction and the earth somewhere near at right angles. This is a very unusual grouping. I should think nevertheless, that grouping of others equally remarkable must have happened several times in the course of recorded history.

"However, no bad results are to be feared from it. There is no evidence of any influence of the planets upon the sun or the earth; no evidence that they produce sun spots for example; and it is highly improbable that they do. And sun spots have no influence on the weather of the earth, of which anyone knows. Great spots have often developed without any bad effects.

"Sun spots occur most frequently about 11 years apart; at these times there is a general increased activity in the sun, of which the spots are only a symptom; there is a slightly greater emission of heat; Northern Lights on the earth are frequent; 'magnetic storms,' by which is meant not thunderstorms, but unusual variations in the magnetism of the earth, are common; and ocasionally the electric currents set up in the earth are such as to put the wire telegraph out of commission for hours at a time. I remember one case, for example, where the east and west wires in Eastern Canada could not be worked at all for several hours, while the nort hand south lines were not affected. Then, as the solar maximum passes, all these activities slowly die down; and in due time build themselves up again for the next maximum. But nothing dangerous or destructive happens."

KANSANS EXPERIENCE PIONEER HARDSHIPS

Topeka, Kan., Dec. 10.—All the hard ships of pioneer days of Kansas have been brought back by the severe weather which is holding the state in grip and an alarming fuel shortage with mercury below zero ove rthe state. The suffering is probably greater than ever known among early day settlers

Brandies Refuses Plea.

Washington, Dec. 10.—Justice Brandies today refused the plea of Harry Weinberger, attorney for Emma Goldman and Alexander Berkman for a writ of error to bring the deportation cases of Goldman and Berkman to the supreme court on habeas corpus proceedings. Weinberger is to make plea before the full supreme court this afternoon.

Lawrence Edward Hunt, a student at Christian Brothers college in St. Joseph returned to Maryville Tuesday to remain until the college re-opens. Because of the fuel conditions, the college has been indefinitely closed.

RECORDS LACKING OF SERVICE MEN

IMPORTANT DATA WANTED AT COUNTY CLERK'S OFFICE

NOTES WANTED BY STATE

Many Reasons Why Full Information Regarding Soldiers is Necessary to Adjutant General.

The Democrat-Forum is printing a second installment of the names of the boys of Nodaway county who were in the army or navy who have neglected or failed to send in their service records to County Clerk Fred W. Smith. This service record is being collected by Mr. Smith at the request of the State so as a complete record can be kept of all of the service men in the late war.

The following is the last of names who have not sent in their service record:

Burlington Junction—Asbrook, John W.; Booher, Chas. F.; Claypool, Wilson Vernon; Coleman, Dale; Cobb, Geo. Henry; Caldwell, E. E.; Dicks, John; Foley, Elbert T.; Graves, Joseph; Headrick, Garland O.; Harness Lawson Arthur; Helms, Carl E.; Hood, Chas. Elmo; Metcalf, Holmes Houston; Martin, John Brown; Manes Chas. Liston; Miller, Robert R.; Miller, Carl; Miller, Fred Boyer; Monk, Albert; Staples, Rudolph R.; Tobin, James T.; Dicks, Rolla A., deceased.

Barnard—Brunson, Joe; Bloom, Chas. Martin; Byergo, Glen T.; Carder Frank Albert; Chambers, Samuel; Carter, Frank; Cook, Harry; Goff, Harry R.; Green Melvan; Gardner, Gene; Hansen, John; Hansen Dehan; Hammond, J. M.; Harness, Henry F.; Hainey, Roy Francis; Kennedy, Carl; Kiser, Reed I; Kiser, Floyd; Pearce, Wm. C.; Patton, Albert C.; Watson, Richard; Stafford, Jesse Scott; Thrasher; Elmer Reaves; Turpin, Roy Jefferson; Wohlford, Chas. W.; Crain, Chester Nathan, deceased; Dunn Marion Alvin, deceased; O'Howell, Robert U., deceased.

Skidmore—Aldrich, John H.; Farley, Grover C.; Hall, Reuben A.; Hitchcock, David F.; Hickerson, Thos.; Hicks, Clifford; Hopkins, Lee R.; Hughes, James H.; Hutchinson, Leon; Hitchcock, Harley; Heath Milton; Huff, Verne; Jordan, Earl T.; Johnson, Rex L.; Linville, Emmett L.; Littler, Emmett R.; Learry, Paul; Montgomery, R. C.; Montgomery, Neal; McClain, Ralston J.; Neuffer, Geo.; Owens, Marion M.; Peters, Andrew; Resse, Lasing Jas.; Roberts, Austin W.; Robbins, Delmar L.; Rodman, Basil A.; Riley, Otto; Sewell, H. A.; Sewell, O. D.; Sharp, Earl F.; Taylor, Adrian C.; Totten, Floyd R.; Thompson, M. S.; Yager, Alfred; Yoe, Roscoe; Kuntzman, John Ray, deceased; Reaksecker, Warren W., deceased; Hughes, James Harvey, deceased.

Bedford, Iowa—Allen, Dean.

Miscellaneous—Boase, Samuel, Akron, Ohio; Dearford, Alfred Franklin; Sheridan, Mo., Dowas, Wm. Jr., Sheridan, Mo., deceased; McCollum, Ira J., Sheridan, Mo., deceased; Ellerman, Wm., Clyde.

Maryville—Alkire, Irvin D.; Adams, Earl Leslie; Anderson, Jack; Anderson, Chas.; Alkire, Henderson; Bickett, Albert T.; Brummitt, Glen; Bartram, Emmett; Ballard, Cleo L.; Belcher, Virgil E.; Blair, Russell;; Black, Leslie Elmer; Breedlove, Andrew; Barton, Henry; Cobb, Arthur Oliver; Cox, Gideon G.; Cook, Cory G.; Carlson, Carl Oscar; Cox, Ernest Richard; Culver, Perry; (Irish); Clark, June; Costillo, Byron; Cornelius, R. G.; Clawson, Ova; Daley, Wm. F.; David, Roy; Dark, Vascas; Dempsey, Carl; Dooley, John H.; Doran, Wm. B.; Denny, Paul E.; DeWitt, Raymond; DeArmond, R. E.; Evans, Roy; Fannon, Chas. Madison; Foreman, Lloyd; Fisher, Carl; Frank, Elmore; Ford, Harold; Gett, Cleo B.; Goin, Clarence; Graves, Carl W.; Gunn Alophus; Gates, Ezra; Grooms, Cecil; Glenn, Adamson; Galbraith, John Boyd; Greeson, Geo.; Gibson, Horace; Gillam, Forrest Hasty, Chas. Elmer; Hanna, Forrest; Harper, Charles; Hallowell, Truman; Holt, A. D; Hork, Wilbur; Hawkins, John Ruskin; Hartness, Ernest Lewis; Harbison, John Groves; Hawkins, W. W.; Henson, Everett; Henson, Fay Holmes, Geo.; Holmes, Ned; Holt, Waldo; Holmes, Harry; James, Ambrose C.; Jones, Ralph Raymond; Jones, Clarence Clem; Knox, Forrest W.; Keeler, John P.; Kirch, Al; Kinder, Chas.; Knox, Leo; Lroetch, Geo.; King, Donald; Kiser, Clyde; King, Herman; Linneman, Edward; Long, Wm.; Lavelle,

BOARD OF H. S. ASSOCIATION MEETS AT ST. JOE FEB. 7

Will Settle Details of Basket Ball Tournament and Track Meet to be Held in Maryville.

The meeting of the board of control of the Northwest Missouri High School Association for the settlement of plans for the basket ball tournament in March and the track meet in May will be held in St. Joseph Feb. 7.

The following notice is from the St. Joseph News-Press:

Richmond, Mo., Dec. 9.—A. L. Dailey of the Richmond High School, president of the Northwest Missouri High School Association, said today that he would call another meeting of the board of control of the association to be held in St. Joseph Saturday, Feb. 7. The board will revise the constitution and bylaws at that time for submission at the annual meeting of the association at Maryville in May. At the St. Joseph meeting the dates for the association's basket ball tournament in Maryville in March, and the track and field meet, as well as the literary contests in May, will be announced.

REGIONAL FUEL COMMITTEE WILL INCREASE POLICE

Observance of Conservation Rules Issued by Committee Watched in all Cities and Towns of State.

St. Louis, Mo.—The Southwestern Regional Fuel Committee today was making preparations to have the police forces of every city, town and hamlet in the state co-operate in the enforcement of the fuel observation regulations issued the committee. The committee was communicating with the authorities, asking that household ers, stores, shops, factories, plants and public buildings be watched and that reports be made of all persons not living up to the order which requires curtailment of business hours, and reduction of heat in homes, and buildings of all kinds.

Those who persist in disobeying the conservation orders after they have been warned, will find their supply of coal cut off entirely, it was stated.

SENATE FOREIGN COMMITTEE ON IMMIGRATION POLICY.

Washington, Dec. 10.—The senate foreign relations committee today laid down the policy of restricted immigration which congress is expected to endorse soon. The committee favorably reported the resolution sponsored by Senator Lodge its chairman, which provides that six hundred thousand dollars appropriated by congress to meet the expenses of regulating further entry of criminals and other objectionable aliens at American port be placed immediately at the government's disposal.

RAILROADS BACK TO PRIVATE OWNERS DEC. 31

Washington, Dec. 10.—Director General Hines this afternoon declared there had been no change in the plan of the president to turn the railroads back to their private owners on December 31. The statement was made in answer to numerous rumors that the president has decided to defer the return of the roads.

At St. Francis Hospital.

Julius Durbin of Conception was operated upon yesterday at St. Francis hospital for appendicitis.

Methodists Give Supper.

There will be an oyster supper given at the Methodist church of Wilcox Saturday night by the women of the church. Sandwiches and pies will also be served.

COAL CONFERENCE STILL IN SESSION

QUESTION UNDER CONSIDERATION AGREEMENT EXPECTED.

FUEL RESTRICTIONS ON

Every Available Car Will be Sent to Mines as Soon as Miners Return to Work.

Indianapolis, Dec. 10.—The conference of the officials of the United States Mine Workers of America in session here to consider the government's offer of fourteen per cent wage increase as basis of settling the coal strike adjourned at 12:10 this afternoon without reaching an agreement. They will meet again at 1:30 this afternoon. Acting President Lewis of the miners on leaving the conference room said:

"We have a question under consideration and think we will be able to reach an agreement today."

Lewis refused to make further comment on the progress being made.

Washington, Dec. 10.—Restrictions in the consumption of coal imposed during the strike emergency will not be modified until the production is sufficient to meet essential needs of the country, was announced today from the office of director general Hines.

Arrangements are being made to put every available car at the disposal of the mines as soon as miners return to work.

Washington, Dec. 10.—A coal shortage is in prospect for the next twelve months in the opinion of the coal experts here today checking up effects of the coal strike and applying findings to next year's outlook.

Indianapolis, Dec. 10.—The general committee of the United Mine Workers of America, meeting here to consider President Wilson's proposal for ending the strike of bituminous coal miners, adjourned at 6:30 o'clock last night without reaching an agreement. The committee met again this morning at 9:30 o'clock.

The miners had been in continuous session since 2 o'clock yesterday afternoon when John L. Lewis, acting president of the mine workers organization, presented the proposal of president Wilson to end the strike, which began more than five weeks ago.

The general committee of the miners is composed of 84 international and district officials and members of the organizations executive board and scale committee.

After the miners adjourned this evening it was reported that a big factor in the opposition to acceptance of the president's proposal was the belief on the part of many miners that it would require another session of the general convention of the United mine workers to make valid an agreement to end the strike.

Social at Snowball School.

A box and pie social will be given at the Snowball school house one and one half miles north of Orrsburg on Tuesday night, December 16. The event is being arranged by Miss Maude Fredle, teacher and every one is invited.

Weather for Today

Fair and warmer tonight, Thursday, cloudiness and warmer.

Notice to Advertisers

Because of the early closing order and the necessity of getting on the press at 3 o'clock each afternoon, advertising copy will have to be in early. To insure the publication of advertising, it must be in by noon of the same day. Today and previously we have been obliged to omit a few late advertisements. It would aid us materially if large ads could be turned in on the evening preceding the day on which they are to be run. We can give the advertiser better display and better position.

Please help us out so that we can abide by the ruling of the fuel administration.

STATE NEWS LETTER

St. Louis, Dec. 10.—With already slim coal bins rapidly depleted owing to the cold wave which has settled down over the state, the fuel situation in Missouri was becoming more acute today, with additional and strigent orders from the Regional Fuel Committee going into effect.

The new orders, issued following a two day conference, late yesterday and effective at once, limits heat in homes, apartments and flats to 68 degress and orders housewives to cut off heat and light entirely in unused rooms. The housewife is also requested to restrict use of gas to a minimum necessary for cooking.

Retail stores are restricted to business between the hours of 9 a. m. and 5 p. m. and all show window lights are under the ban, with the exception of those lights in windows at least twelve feet from the sidewalk and necessary to light the store entrance. All store lights must be extinguished by six p. m. Window lights are permitted between the hours of sunset and 6 p. m.

Churches are urged to arrange community services in one centrally located church in each neighborhood, beginning Sunday, Dec. 7th.

Owners, agents, superintendents and janitors of all factory, stores, office, buildings, plants, apartment and flat houses are ordered to see that the regulations are observed.

The order, like the previous ones, applies to the entire southwestern rail road region, as well as Missouri.

While Washington dispatches state that coal production is a trifle more than fifty per cent of normal, the fields supplying the eastern section of Missouri the principal portion of its fuel, the huge southern Illinois fields, are idle.

There is no indication of the miners in these fields accepting the fourteen per cent wage increase suggested by Fuel Administrator Garfield and offered the strikers by the operators through notices posted on the mines' bulletin boards. Leaders are firm in declaring that the men are determined to remain out until their demands for higher wages are granted.

Governor Gardner has taken considerable cognizance of the situation. In a statement issued following his return from the conference of Governors of mid-western states in Chicago, where plans were laid for allevating the situation, the Governor urged the public to co-operate and use every possible means for conserving coal. He urged that small community mines be opened up and suggested the appointment of a state fuel administrator.

"There are many sections of the state where there are small surface deposits of coal known as strip mines," the Governor said in his statement, appealing to the people of communities where such mines are located to mine this coal in order that every available bushel of fuel might be obtained. Mining of strip mines requires practically no experience other than ability to handle a pick and shovel.

The sun is farther away from the earth in June than in December. In June it is about 94,500,000 miles from the earth, and in December it is about 91,500,000 miles from the earth.

EQUITABLE "Buy it of Brewer."

Good Advice

If you are sick and know what ails you, go to any drug store, the druggist will advise you the kind of medicine to buy. It may do you good. His services are free. If your eyesight fails and you know what is the matter with your eyes you can go to a store where they sell glasses. The dealer will test your eyes and sell you glasses. They may help you. His services are free. But if you are sick and dont' know what is the matter with you, call on an efficient doctor practicing medicine. He will cure you. If your eyesight fails, you don't know why they have failed. You have no way of knowing unless you have been a student of an optical college. Call on an efficient doctor of optics. He will carefully examine your eyes and fit them with glasses which will restore your vision and cure headache, if it is caused by eyestrain. John LeGrand Baker, exclusive, efficient doctor of optics, of Maryville, Mo.—Adv.

Our Christmas Girl

Cedar Rapids, La., received a Thanks giving donation of $25,000 from a farmer resident, of which sum $15,000 is to be used for the purchase of a tract of sixty acres to be used for park purposes and $10,00 for improvements.

IMPORTS OF LUXURIES INCREASED 125 % IN YEAR.

New York—Unprecedented extravagance is indicated in statistics from the office of the Collector of the port of New York which show an increase in luxury imports 125 per cent over a year ago.

Duties on 27 articles on the luxury list ranging from toys to ostrich feathers totaled $57,684,446 for the three months ended Sept. 30—and that despite a liberal exception on dutiable goods allowed to returned soldiers.

HOW WEAK WOMEN ARE MADE STRONG

Mrs. Westmoreland Tells in the Following Letter.

Harrison, N. Y.—"When my first child was born I did not know about Lydia E. Pinkham's Vegetable Compound and had a very hard time. I read in the newspapers about the Vegetable Compound and when my second child came I took it and was well during the whole time, and childbirth was a hundred times easier. Ever since then I have used it for any weakness and would not be without it for the world. I do all my work and am strong and healthy. I am nursing my baby, and I still take the Vegetable, and it keeps a woman in good health. You may publish my testimonial for the good of other women, if you choose to do so."—Mrs. C. WESTMORELAND, Harrison, N.Y.

Women who suffer from displacements, irregularities, inflammation, ulceration, backache, headaches and nervousness should lose no time in giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial, and for special advice write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

WELL KNOWN MISSOURI FOLKS

St. Louis, Mo.—"Dr. Pierce's medicines have been a wonderful help to me. Some years ago during each winter I would get run-down and catch cold, which would leave me with a very bad cough that usually bothered me nearly all summer. I took Dr. Pierce's Golden Medical Discovery and it cured me so completely that I have never had any return of this condition. I have since taken Dr. Pierce's Favorite Prescription during expectancy and afterward with wonderful results. No woman should try to go through this condition without the use of 'Favorite Prescription.'"—MRS. M. A. HARRIS, 1420 S. Cardinal St.

A Woman's Weakness—Operation Was Advised

Carrollton, Mo.—"I was very poorly with woman's weakness. Had consulted with three doctors and they all advised an operation. A lady friend advised me to try Dr. Pierce's Favorite Prescription. I was in bed when I began to take this medicine, but by the time I had taken half a bottle I was up on my feet. I took seven bottles in all and was then well enough to do all my work and felt fine. I got very stout and felt just as I did when I was young. It is certainly a grand medicine and I have often recommended it to others.—MRS. MARY STANDLEY, 203 E. Dublin.

When Run-Down and Nervous

Chillicothe, Mo.—"For four years I had pains in my back and in the back of my head. I was all run-down and nervous. Was practically in bed for a year. My mother advised me to try Dr. Pierce's Golden Medical Discovery so I took it and was helped almost at once. I only took three bottles of it and have been better ever since that time. I know it is a fine medicine."—MRS. G. D. MARPLE, 421 East 22nd St.

Willard STORAGE BATTERY

First Cost

We can't compete for battery business on price.

Willard service *does* cost more, so does a Willard Battery. But isn't it true that if you hire a *real* engineer, or *architect*, or *contractor*, or *carpenter*, or *mechanic*, or *doctor*, or *lawyer*, that it saves in the long run?

We're in business to do the job *right the first time*—and that costs more than to fix it so it has to be done over again soon after.

When we sell a Willard Battery with Threaded Rubber Insulation we charge more for it, *but*, it doesn't come back for re-insulation with a big bill to you. It stays on the job till it has delivered all the service you bought—and generally a lot more than you'd believe possible.

Try it once—and you'll feel the same as 99% of all who own Willard Batteries with Threaded Rubber Insulation.

Drop in, glad to see you.

J. L. FISHER

Exquisite Tones that Thrill the Soul

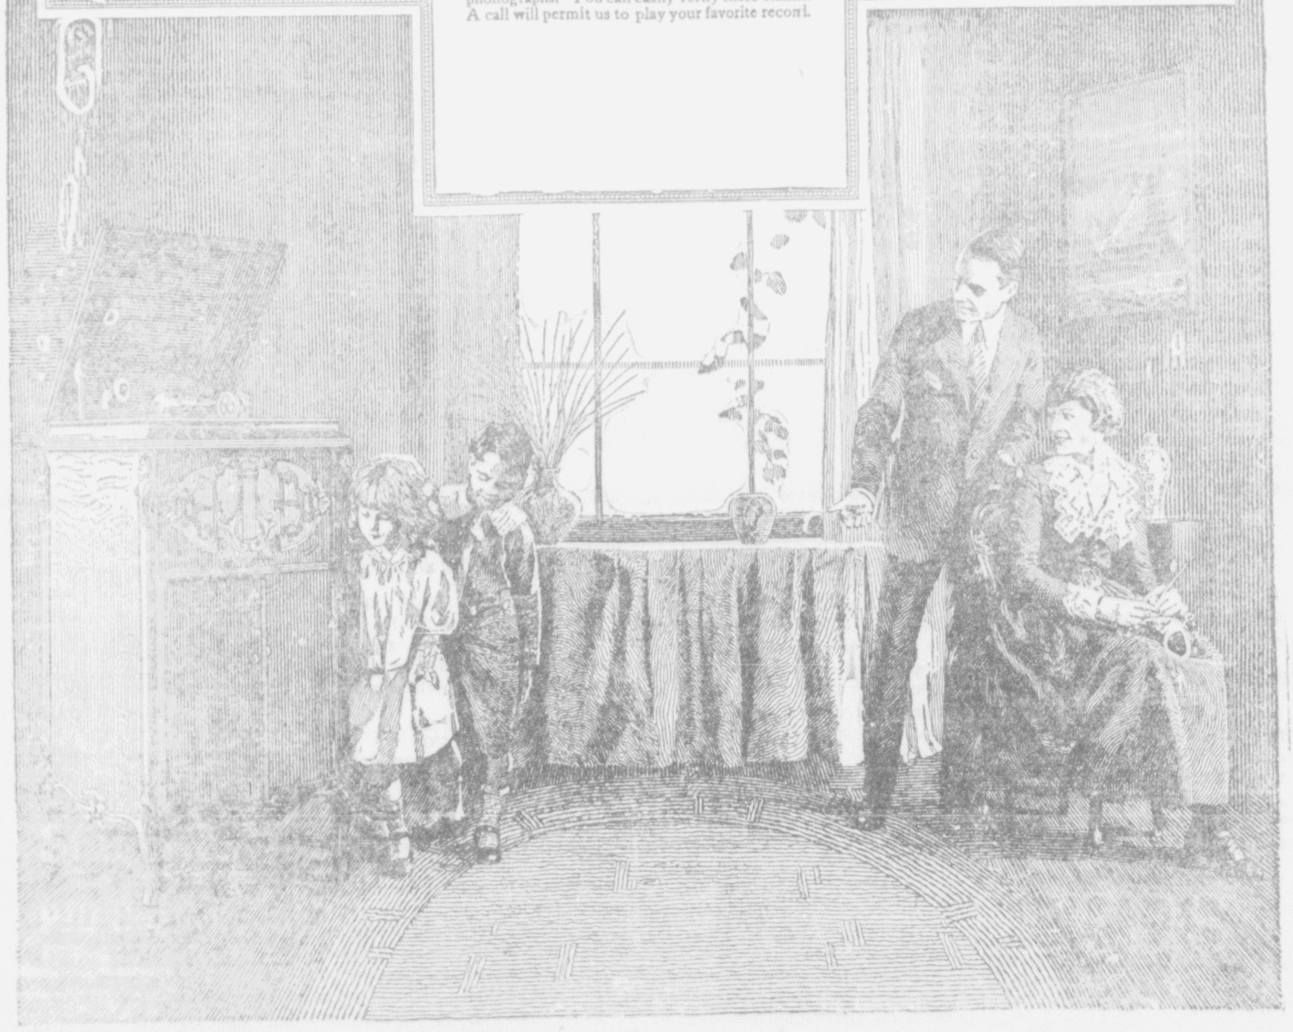
PHONOGRAPHIC tone reproduction reaches its climax when presented by The Brunswick. Play any make record—vocal or instrumental—and the utmost in tone quality is achieved.

Such triumphant success is due to the Brunswick Method of Reproduction. This is *accomplished* by two exclusive features. Both are scientific yet simple. The Brunswick Phonograph has built into it the best ingenuity known to the phonograph world. The Ultona plays all records truer, finer, sweeter. It is not a makeshift contrivance. A slight turn of the hand presents the right needle, diaphragm and *weight for playing any record.*

The Brunswick
ALL PHONOGRAPHS IN ONE

The Tone Amplifier is an oval shaped vibrant tone chamber. Like the sounding board of a fine piano or violin, it is made entirely of wood and free from metal.

One hearing of The Brunswick will cause you to discard the standards of yesterday in judging phonographs. You can easily verify those claims. A call will permit us to play your favorite record.



PRICE & McNEAL

ANNUAL NAVAL REPORT IS ISSUED

WILL RUSH COMPLETION OF 18 CAPITAL SHIPS

ADVISES WAGE INCREASE

Yearly Report of Secretary Daniels Outlines Plan of Navy Department for 1920.

Washington, Dec. 9.—A naval programme which will give the United States eighteen new capital ships armed heavier than any vessel now afloat is being pressed to completion, Secretary of the Navy Daniels said in his annual report, made public today.

Emerging from the war with a navy second only to Great Britian, the programme provides:

Six huge battle cruisers of 43,500 tons driving through the ocean at 33 knots an hour.,

Six new super dreadnaughts of 43,200 tons each, 1,800 tons larger than the famous Pennsylvania.

Ten new scout vessels with an aggregate of 900,000 horsepower.

The total propelling force of the fleet with these additions will be 13,000,000 horsepower, eight times that of the total pasenger carrying ships on the Atlantic, including the big former German liners.

Guns larger than any now in use or being placed afloat are being built for our battleships and battle cruisers.

The last word in American naval gun design, 16-inch, 550 calibre, developing a muzzle energy of 115,000 foot tons, the total battery of 190 guns now under construction could deliver 200 tons of projectiles at one salvo.

Secretary Daniels pointed out that these guns are capable of delivering a smashing blow superior to anything now existing, but owing to their size are more accurate than the lighter guns.

Naval officers estimate that the energy from a combined salvo of all these guns would equal that necessary to lift a battleship the height of the Washington monument.

The present American battle force, fresh from its operations in the war zone, has been divided, and one force under Admiral Rodman, is now in the Pacific.

This step, said the secretary was only taken after careful consideration. He announced it as the plan of the department to have both fleets equally at home in the Atlantic or Pacific.

The war work of the navy is just closing, he said.

One of the most heroic services and the least heralded has just ended with the return of the mine sweepers. This force, the navy's suicide club," laid the barrage across the North Sea which proved more of a terror to the Hun sub commander than anything above water. Row on row to a depth of 240 feet, below which no submarine dares to go because of the terrific pressure, was a belt of mines stretching across the North sea, 250 miles.

The American navy laid 56,611 mines, the British 13,652. The mine sweepers have just completed the task of picking this destructive girdle from the depths. In doing this job one sweeper was blown up with the loss of her commander and a number of the crew. Eight operations were necessary for the work and in virtually every one mine sweepers were badly damaged by explosions near them often resulting in injury to the men.

The navy also brought home in half the time it took to send them abroad close to 2,000,000 soldiers of the American army. Half of these men were carried to France in foreign ships. They were brought back by the navy whose men remained in service to do the work in many cases. Not even proud battleships have been exempt from the work, many having served as transports.

This has been the biggest job since the armistice, just as demobilization was the biggest concern of the war department when the fighting ceased.

In the past year 411,675 enlisted men and 13,227 officers have been released from service. There have been approximately 72,334 new enlistments, transfers from the naval reserve and re-enlistments.

A separate air service was opposed in teh report. He advocates the broadest development of the service, however. The secretary emphasized the need for salary reclassification. His estimate of the needs of the department for 1921 are $3,097,870, a reduction over the current fiscal year of more than $125,110. Estimates for the naval establishment amount in all to $573,131,254.80, or $40,115,584.08 less than the appropriation for the current fiscal year.

Protect your Barn with Cooks Prairie red Barn Paint. Gaugh & Evans. tf

---

The best marksmen are usually those with grey or blue eyes.

The Italian is never allowed to rub its eyes. If it bursts into tears it is not repressed, but allowed to have the cry out. This, it is claimed, beautifies the eyes and makes them clear, while rubbing the eyes injures them in many ways.

If you have no appetite for your meals, something is wrong in your digestive organs. Take a dose or two of Prickly Ash Bitters, the midicen for men. It cleanses the stomach, liver and bowels, creates appetite, vigor and cheerfulness. Price $1.25 per bottle. Maryville Drug Co. ADV.

BREAKS A COLD IN JUST A FEW HOURS

"Pape's Cold Compound" Instantly Relieves Stuffiness and Distress.

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all grippe misery.

The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!

Natives of the hill regions of India consider the deodar tree almost sacred As its names implies, it is the tree of the gods, and round many of the picturesque little temples one sees magnificient groves of fine old deodars, perhaps 800 or 900 years old.

Symptons of kidney disease should receive instant attention, as neglect is dangerous. If your back aches or you have trouble with the urine, begin taking Prickly Ash Bitters. It is a dependable kidney remedy, particularly benfical for elderly men. Price $1.25 per bottle. Maryville Drug Co. ADV.

One of the most famous wells in existence is that at Grenelle, in the outskirts of Paris, where the water is brought from a depth of 1,798 feet. It yields 516½ gallons of water a minute. Many years ago a well in Budapest was sunk to the depth of 3,100 feet.

State Meeting Postponed.

On account of the coal strike where by a ban has been placed on public meetings the proposed assemblage of the Democratic negroes of Missouri, to have been held at Sedalia, December 17, when the negroes were to have perfected their state organization, has been postponed. The date of postponement will be announced later.

Throughout the state the Democratic negroes are enthusiastis at the prospects of a state organization. They promise state committeemen (both men and women), from each of the 16 Congressional districts will attend the Sedalia conference, and that they will muster 15,000 negro Democratic voters at the forthcoming November election.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia). 30c and 60c jars; hospital size $2.50.

Nothing nicer for Father, Son or Brother than one of our fine HART SCHAFFNER SUITS OR OVERCOATS

Montgomery-Cummins Clothing Company

The Christmas Store for Men

BIFF!

Stop jolting Liver and Bowels with violent drugs, but take "Cascarets."

"Dynamiting" bile out of your system with calomel and other sickening purgatives is all wrong. Salts, Oil and Cathartic Waters act by flooding the bowels with the digestive juices which are vital to the stomach. Cascarets are different. They act as a tonic to the bowel muscles, which is the only sensible way to relieve a bilious attack, a sour, acid stomach, or constipated bowels. There is no griping or inconvenience. You naturally return to regularity and cheerfulness. Cascarets cost very little and they work while you sleep.

Quitman News.

Rev. Jenkins' grandmother of Memphis, Mo., is visiting at the parsonage and caring for Dwight Hillis who arrived Sunday.

Mrs. Willis Franklin returned home Monday from an extended visit with relatives in South Missouri and Kan.

F. C. Wilson went to St. Joseph Tuesday to buy goods.

Social, Clubs Churches

Foster Dinner.

Mr. and Mrs. Charles Foster entertained at dinner Sunday noon in honor of the latter's mother, Mrs Ada Diem. Others present were Mr. and Mrs. T. J. Hurley and Carl and Ruth, the little children of the host and hostess.

Richard Lyle Snodgrass.

The infant son, who came several weeks ago to the home of Rev. and Mrs. R. E. Snodgrass, has been named Richard Lyle. On account of the serious illness of an older son, Robert, with pneumonia, and the engrossing work of Rev. Snodgrass at the First Christian church revival, the naming of the baby was delayed several weeks. Robert is now considered out of danger and is slowly recovering.

For Minnesota Visitors.

Mr. and Mrs. H. A. Younke entertained at dinner Sunday at their home southeast of the city, in honor of Mr. and Mrs. C. J. Bailey of Duluth, Minn., who have been spending a few days here. Plates were laid for Mr. and Mrs George Wright, Mr. and Mrs. M. C. Baublitts, Mr. and Mrs. C. J Younke and daughter, Carmen Yvonne, Mabel, Charlene and Adeline Pixler, Doris Younke, Pearl Marie Wright, Elsie Wright, Baublitts Wright, Betty June Younke, Claud Younke, Ross Baublitts Ralph Palmer, the honor guests and the host and hostess.

A Pleasant Surprise.

A birthday dinner was given Monday for I. N. Wray at the home of his son, Roland Wray, in Pickering, the occasion being his eightieth birthday. An elaborate dinner was in readiness and an anxious crowd awaited his arrival at the home to enjoy the pleasure of the surprise which was complete in every detail. A large birthday cake with eighty candles adorned the canble. Those present were: Mr. and Mrs. Ernest Wray and son, Mr. and Mrs. Harry Lett and family, Mr. and Mrs. Vern Wray and family, Mr. and Mrs. Irvin Lock and son, Omer Wray and son, Mr. and Mrs. E A Miller, Mr. and Mrs. E. R. Wray and family, F. M Wallis, J B Taylor, Mrs. Maranda Miller. All of his children were present except one son, Harry Wray of Seward Neb.

Mr. Wray has eight living children and 23 grandchildren. Before departing for their various homes each child was presented wit ha check with Father Wray's signature on it, which added to the already pleasant occasion. Mr. Wray has aske dthe writer t include his thanks to Mr. Gus Athens of the Candy Kitchen for his kind remembrance.

Bennick-Ford Wedding.

Miss Kahla Bennick became the bride of Halley Ford of Maryville in a simple home ceremony this afternoon at the residence of Mr. and Mrs. Guy Harden of Stanberry. The ring ceremony was read by the Rev. E. C. Morgan, pastor of the Methodist church, at 5 o'clock, when a small gathering of relatives and intimate friends was present. Preceding the ceremony Miss Thelma Morris sang "at Dawning" (Cadman) and "Because" (d'Hardelot), accompanied by Miss Hazel Wallace of Maryville, pianist. As Miss Vestena Sweat played Mendelssohn's Wedding March, with violin accompaniment by Miss Blanche Sweat, the bridal couple entered, taking their places between the colonades which were beautifully decorated for the occasion. The attendants were Mr. and Mrs. Harden. The bride was most becomingly attired in tan corded silk with georgette and gold lace trimmings and carried a bouquet of Ophelia roses. An interesting and unique feature of the bridal dress was that it had been worn by the bride's mother at her wedding 27 years ago. Following the ceremony a buffet luncheon was served, with Miss Irene Collier and Miss Grace Miller of King City assisting. A color scheme of tan and white was used to decorate the rooms.

The bride is the daughter of Mr. and Mrs. J. T. Chrisman of Duluth, Minn. formerly of Stanberry. She was one of Stanberry's most popular and talented youg ladies. She completed the high school course there and at the same time was a student at the Earnest school of Dramatic art. She later attended the State Teachers College in Maryville. For the past three years she has been a very successful instructor in the public schools of Stanberry.

The bridegroom is the son of Mr. and Mrs. J. D. Ford, 611 North Buchanan street. He is a graduate of the Maryville high school and the State Teachers college, and was a senior at Missouri State university when he was called into military service. One year of which was spent in France and Germany. He is a member of the Pi Kappa Alpha and Sigma Kappa Zeta fraternities. At present he is engaged, with his father, as a grower of fine apples near Maryville. The out of town guests at the wedding included Mrs. J. T. Chrisman of Duluth, Minn., mother of the bride, Henry O. Bennick of Des Moines, Ia., Mr. and Mrs. J. D. Ford and Carrol Hogan of Maryville, Miss Grace Miller of King City, Miss Ruby Ewing of Grant City, Mrs. Lowell Andrews of Sheridan, Mo., Mrs. Frank Gillette of Hamilton, and Mrs. H. V. Ferritor of Council Bluffs. Ia.

Miss Baker Hostess.

The Tuesday Afternoon Bridge Club was entertained yesterday afternoon at the home of Miss Carrie Margaret Baker. The favor for high score was won by Mrs. D. J. Thomas. Mrs. Ralph Eversole was a guest of the club.

P. E. O. Chapter.

Mrs. J. D. Richey will be hostess to the P. E. O. Chapter Saturday afternoon when Miss Carrie E. Hopkins will be leader of the program on Christmas. Mrs. T. L. Wilderman, Mrs. J. E. Bailey and Miss Nell Hudson will participate in a Christmas musical program.

Tourist Department.

Mrs. C. F. Remus was hostess to the Tourist Department of the Twentieth Century Club yesterday afternoon. Roll call was answered to by metropolitan cities of Brazil. The first of the two programs on Brazil proved to be one of the most interesting subjects of the year's study. The climate of South America as a whole was the first paper, and a large map of both South and North America had been prepared, showing the wind currents and bringing out most vividly the resultant effect on the products of the soil and activities of the people. The region of calms, the horse latitude, the trade of the prevailing westerlies—all were illustrated and explained so that the department had a definite and clear understanding of the part climate has played in the development of South America.

The historical review was excellent, brief as it necessarily was. It stated both of the underlying causes of Brazil's stormy history, and gave the members a better understanding of the difficulties and obstacles which the people of our southern sister have had to meet and overcome. Rio and its environs was given in detail. In a country where the principal cities dominate, as in the case of Brazil, the subject was full of universal interest. The beautiful bay, the port, the fifth in the world, the ideal climate, varying from 60 to 90 degrees, the encircling mountains and the romantic history were made very real. The paper on racial distinctions gave us, who know a color line and its attendant inconsistencies and evils only too well, an understanding of a country in which no color line can exist, also some of the differences in the line of development which results in a race so mixed.

The Avenida Rio Blanco, with its three rows of trees and more than a mile of beautiful buildings; Avenida Beira Mar, one of the most beautiful seaside boulevards in the world, the miles of quays and the magnificent public buildings, as well as the suburbs, were all described.

SAYS LARGE FAMILIES ARE BEST; CHILDREN HAPPIER.

London.—Big families are best; the children are happier, less selfish and more reliant. So testified Mrs. John Clay, representing the Mothers' Union before the Birth Rate Commission, which is probing the wherefore of Britain's declining birthrate.

In 115 replies from groups of Mothers' Union members totalling 500,000 Mrs. Clay said 96 favored a family of five or more to be most successful. Here are some of the reasons given:

"In large families children are not coddled so much.

"The children turn out better and learn to be more self-reliant and co-operative.

"They are more forbearant, happier, pleasanter to deal with, less self-conscious, fussy and exacting.

"They are more ready for mutual service, and have more knowledge of human nature.

"They often are of more robust character."

A Victrola for Christmas!

If you want your family and friends to hear the greatest music by the greatest artists exactly as the artists themselves sang or played it, the Victrola is the only instrument for you. The most famous artists of all the world make Victor Records—and the Victrola is the only instrument specially made to play Victor Records.

Any style Victrola you select will play perfectly any of the more than 5,000 records in the Victor Record Catalog—will play for you the superb interpretations of the world's greatest artists exactly as they heard and approved their own work.

Get a Victrola! Get it this Christmas! On easy payments, if desired. The ideal Christmas gift, but more than a Christmas gift—a source of pleasure for the entire family throughout the years to come.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c.

STATE OPENS NEW MARKETING BUREAU

J. R. CAVANAUGH OF U. S. BOARD IN CHARGE OF WORK.

COOPERATE WITH FARMER

Purpose is to Assist Agricultural and Horticultural Producers of State Obtain Broader Market.

Jefferson City, Mo., Dec. 10—J. R. Cavanaugh of the United States bureau of Markets has arrived from Lafayette Ind., taking up his new duties as field agent of the new Missouri State Marketing Bureau. The new marketing service begins immediately, and early in December the work will be on in earnest.

The Missouri State Marketing Bureau is opening the new work of cooperation between the United States Department of Agriculture and the State Board of Agriculture, having started this new activity on December 1, 1919.

The "for sale" and "wanted" listing blanks have been mailed to 1,300 of the farmer crop reporters, and 5,000 more blanks are being printed for distribution.

Farmers and others are invited to report immediately the articles of farm production or farm consumption that they want to buy or have to sell, with brief description also price if desired. If the farmer has a supply of sorghum, sirup, pure bred live stock, a car load of ear corn, a lot of baled hay, or other such farm produce, seeds, etc., which cannot be disposed of to advantage upon your local market, the Marketing bureau will assist in finding a profitable outlet. If in need of any such articles the Marketing bureau will certainly place you in touch with parties who can supply your wants.

It is the purpose of the bureau to assist agricultural and horticultural producers of the state in obtaining a broader market for their crops and in takin gadvantage or the most favorable outlet for such crops.

It is the purpose of the Marketing bureau to cooperate to the fullest extent with both the farm and urban press and with the many established dealers throughout the state who have long been working toward the improvement of agriculture. Permanent and increasing prosperity for Missouri depend upon the hearty co-operation of all the agencies operating within the state, and it is desired that the column of the Marketing Bulletin service may serve as a supplement to the local, farm and daily press.

Give briefest listing to include breed or variety or kind, number or amount, quality or grade, and price. No item is published more than once, except when sent in a second time. It is vitally essential to co-operation in marketing that each inquiry be answered, even after your wants in the case have been satisfied. Persons sending in listings are expected to answer all inquiries even if you use only a postal card, for there is another day coming when the person listing a "want" or "for sale" may be anxiously waiting an answer to a letter that he or she has written in response to a marketing listing.

When your digestion is poor, when your bowels are costive, when your breath is bad, when your stomach is sick or disordered, and you feel languid and low spirited, Prickly Ash Bitters is decidely the remedy you need It cleanses the vital organs, purifies the bowels, and imparts a fine feeling of strength, vigor and cheerfulness. Price $1.25 per bottle. Maryville Drug Co. ADV.

MISSOURI FARM HOME EQUIPMENT.

The city woman who gets all out of sorts because her cook and housekeeper have left, and she is compelled to do her own work in her modern home and model kitchen, has a snap compared with the average form wife. She can step to the telephone and order nearly a whole meal already cooked She can light the gas or turn on the electricity to warm it up. She can eat it in a dining room made comfortable by furnace heat. Can can—well, she simply has little to do in comparison to the farm wife.

The university of Missouri college of Agriculture thru the home economics workers of the extension service surveyed 645 farm homes in several counties this fall. The homes were not chosen because of unusual conditions prevailing in them. They were selected as typical homes. On these farms, which averaged four miles from town, the usual lines of work were followed. Of the total number of farms visited, 407 were occupied by their owners. The homes averaged five rooms.

Of the 645 homes, only 27 were lighted by gas and 28 by electricity; the rest depended on kerosene lamps. More than 500 were heated by stoves. How would that suit the city housekeeper? Of these homes, 461 had no indoor water supply. In 385 of them the women had to carry the water, which means that in 76 homes, perhaps father or the children carried the bucket. Only 62 had running water in the house altho 135 had sinks with drain. More facts for the city woman to think about. And here are some figures disgraceful even to the farm: Only 397 farm homes were provided with out of door closets, 5 with chemical closets, 14 with indoor closets and septic tank, and the rest of them, 229, had none at all. A bath tub served with running hot and cold water was found in 37 homes. Twenty one homes were not screened.

These are some of the most important items. Other figures follow. Number of homes having linoleum on the kitchen floor 374, kitchen cabinet 335 bread mixer 34, fireless cooker 35, canner 78, wheel tray 17, dumb waiter to cellar 13, kerosene stove 381, screened kitchen porch 253, gasoline iron 27, electric iron 13, carpet sweeper 167, hand vacuum cleaner 100, power cleaner 5, sewing machine 419.

Perhaps the city housewife could worry along without these conveniences. But how would she like to start her day's work at four in the morning On the farms visited, 85 women started the day at that hour in summer and 56 in winter; 289 began at five in summer and 91 in winter; 148 began at six in summer and 270 in winter; and 20 began at seven in the summer and 138 at that hour in winter. I nthe summer the day's work on the farm ended at seven p. m. for 73 women, at eight for 258 at nine for 207, and at ten for 61. The others are still working. The day ends a little earlier in winter; 274 quit at seven, 150 quit at eight, 91 quit at nine and 14 quit at ten p. m. The farm wife gets an average of one hour a day recreation, altho it is not evident from the survey just when the hour comes. About 130 of the farm wives had no free time luring the day for rest or recreation. Maybe this explains why women's clubs flourish in the city and are almost unknown outside of the corporate limits.

In spite of all these disconcerting figures, the farm wife is a happy woman. More than half or 356 of the farm had automobiles, which afforded them means to get away from home once in awhile to help their neighbors who were busy.

The Buick Built Spring

This Long Sweeping Buick Cantilever Spring, With Its Fourteen Broad Heavy Leaves, Abounds In Comfort

It absorbs hundreds of jolts,—It eliminates thousands of jars and distributes pleasing comfort with equal care to both front and rear seats, so smooth in action, that each passenger is thrilled with its dependable performance.

Such efficiency is not only the result of construction, but is obtained thru the well balanced position in which each spring is hung to the sturdy Buick frame.

For Buick engineers by their modern methods of manufacture have placed upon this unit the responsibility of the full load of each car's capacity—a duty in which quality and endurance so reliably work hand in hand.

G.O.P.'S COLLECT BIG SLUSH FUND

MAY TOTAL MILLIONS IF GATHERING IS CONTINUED

TO BUY 1920 ELECTIONS

W. W. Barbin, State Chairman of Ohio Democratic Committee Brings Charge in Open Letter.

Washington, D. C.—A charge that the Republican managers already have started to gather an immense slush fund for the campaign of 1920, and that it may total $100,000,000 if the present ratio is kept up, has been made by W. W. Durbin, state chairman of the Ohio Democratic Executive Committee, in an open letter to chairman Homer S. Cummings of the Democratic National Committee.

The evidence upon which Mr. Durbin bases his charge is a letter sent out from Cincinnati by J. B. Doan, R. K. LeBlond, and Fred A. Gier, each of whom admits contributing $1,000 to a preliminary Republican campaign fund as a result of a meeting there on Oct. 28 which was addressed by Will H. Hays, chairman of the Republican National committee. In a letter dated Nov. 4, the men named, state that " a large fund must be obtained immediately, largely for the purpose of an educational campaign," and that "it is not a political problem as much as it is a commercial problem," as "the existence of your business depends upon having an administration whose attitude will be fair and equitable to all classes of society."

The result of the meeting at the Cincinnati business mens club where subscriptions totaling $12,500 from 17 men, and meeting have been held in other Ohio Manufacturing cities.

In his letter to chairman Cummings Mr. Durbin says that under the personal direction of Mr. Hays meetings have been conducted to secure money from "big business men of the state beyond all dreams of avarice," and he considers the treatment of the 1920 canvass as "a commercial problem," to be significant in view of the nation's present prosperity.

Mr. Durbin says that money is being sought to "bring about a return of the good old days of Mark Hanna, when a group as radical in their views as the radicals of today of another class were in control. "He notes a similarity in the methods of Hanna and Hays in the summoning of huge business and financial interests to support the Republican ticket.

"Then," he says, "the nation was put on the auction block and sold to the highest bidder. There never was so much corruption in any ten national campaigns before that time," meaning 1896, 1900 and 1904. "Now the same ld big interests are being told that the safety of their business depends upon the size of their contributions to the Republican slush fund. They have held meetings in Cincinnati, Dayton, Cleveland, Columbus and in other manufacturing centers. Every big business representative is helping to gather in the shekels.

"If carried on throughout the natin—and I am sure it is as Will Hays is doing nothing else now—it will produce a slush fund of $100,000,000 with which to buy the 1920 elections and put big business once more in the saddle. They expect big business to reap its dividends a thousand fold, as it did once before.

"There is great danger of Bolshevism in America. It is cropping out here and there, but, if the Republican party and its main sponsors and financial backers are put into power again, the agitator and the preacher of Bolshevism will find a soil so fertile in which to plant his propaganda crop that the harvest yielded may shake the foundations of the republic."

Honesty among icelanders is so severe a faith that thefts are unknown, though lock, bolts and bars are never used.

Colleges Compare Enrollments

Columbia, Mo., Dec. 3.—According to a comparison of enrollments recently made by Dean F. B. Mumford of the University of Misouri College of Agriculture and the dean of the Wisconsin College of Agriculture, Missouri leads easily in beginning students, while Wisconsin shows a lead in the number of students who are near the completion of their courses. No satisfactory explanation of this variation has been vouchsafed

The comparison showed: First year students, Missouri 174, Wisconsin 145; second year, Missouri 93, Wisconsin 90; third year, Misouri 77, Wisconsin 98; fourth year, Missouri 57, Wisconsin 84.

The same proportions hold true for home economics work, the figures being: First year, Missouri 90, Wisconsin, 71; second year, Missouri 65, Wisconsin 61; third year, Missouri 30, Wisconsin 64; fourth year, Missouri 30, Wisconsin 58.

CHANDLER SIX
Greatest of All Sixes

Spring'll Be Here 'fore You Know It

DESPITE conditions which greatly held back the production of automobiles throughout the early months of this year, nearly twenty thousand discriminating motor car buyers have been made happy and contented by the possession of their new Chandler cars.

Nothing could more clearly show the regard in which America holds the Chandler Six, than the patience with which thousands waited for weeks and months for their Chandlers. They waited because they knew what they were waiting for,—because they know it is *worth* waiting for.

Some are still waiting, but their cars are coming. December production is taking care of many orders, and January will see the great Chandler plant on a production basis unprecedented in the medium priced fine car field.

Chandler dealers will, we hope, be able to fill their orders more quickly next year, but when the first warm days of Spring come, and the country roads call, and everyone decides he wants his new car *at once*, there will be some waiting again.

If you want *your* new Chandler *when* you want it, place your order now. If you want to be sure of getting the car of your choice, the greatest of all Sixes beyond question, drop in and see your Chandler dealer now, regardless of what the weather may be. For "Spring'll be here 'fore you know it."

All Chandler bodies are mounted on the one standard Chandler chassis, which has made the name famous. Simple, sturdy and dependable throughout, its features embrace, as for years past, the really marvelous Chandler motor, solid cast aluminum motor base, annular ball bearings, silent chain drive for the auxiliary motor shafts, and Bosch magneto ignition.

Dress Up For CHRISTMAS

GOOD CLOTHES instill confidence in oneself. The feeling of being well dressed is conducive to a spirit of contentment and of "Good Will Towards Men." This spirit is especially desirable for the coming Yuletide Season.

We have been very fortunate in securing a late delivery on a large shipment of winter Suits and Overcoats. They bear the stamp of

Society Brand and Stein Bloch

which means the best the market affords at the most reasonable price. We have a large range of the latest models in double-breasted belters, plain, single and double-breasted. The prices on these range from **$25 to $50.**

At no time was our line of Overcoats more complete. We have them in heavy overcoating material, both solid and mixed colors, with plain, fur and velvet collars. On these the prices range from $18 to $50.

PRACTICAL GIFTS FOR MEN

SHIRTS

Shirts always make a very sensible and practical gift. We have a few very pretty Shirts in silk and crepe de chine at from **$7.50 to $12.50.** Other shirts of very pleasing patterns in silk stripe madras and very good wearing qualities at from

$2.50 to $5.00

TIES

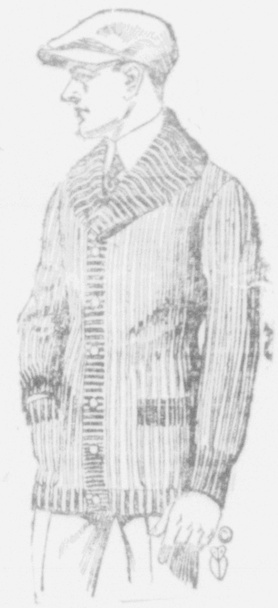
What makes a more acceptable and useful gift than a nice necktie? We have a large range of beautiful patterns in silk knit and lace ties, also silk Four-in-Hands, bow and string ties. The prices range from

50c to $3.50

SCARFS AND MUFFLERS

We have an unusually large and varied assortment in Scarfs and Mufflers. Stripe effects seem to be the prevailing designs this year. Many pretty patterns in both silk and knit material, ranging in price from

$1.00 to $5.00



SWEATER COATS

A fortunate purchase enables us to show you the best line of men's and boys' Sweaters we have shown this season. All the new colors in shaker and rope knit. **A special lot of Men's Heavy Coat Sweaters**, in dark Oxford and maroon at

$3.00

Others $4 to $12

GLOVES

We carry the HANSEN line of Gloves, which is too well known and established for us to comment on. For driving we have the fur-lined and gauntlet gloves; for dress we have the kid and mocha gloves, both silk and unlined. These make a very appropriate Christmas present. Prices range from

$2.00 to $10.00

BATH ROBES

A beautiful line of men's heavy Robes, in many choice patterns—

$7.50 to $10.00

Corwin & Murrin Clothing Co.

"SYRUP OF FIGS" CHILD'S LAXATIVE.

Look at Tongue! Remove Poisons From Stomach, Liver and Bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California." —Adv.

Norman Taylor Crater.

Mr. and Mrs. Taylor Crater, living southwest of Ravenwood, announce the birth this morning of their second child, a son, whom they have named

REBELLION IN STOMACH

"Pape's Diapepsin" at once ends Indigestion and Sour, Acid Stomach

Lumps of undigested food cause pain. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gas and acids and eructate undigested food—just take a tablet or two of Pape's Diapepsin to help neutralize acidity and in five minutes you wonder what became of the pain, acidity, indigestion and distress.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless stomach antacid is Pape's Diapepsin, which costs so little at drug stores.—Adv.

Hides	18c
Old Cocks, per lb.	10
Old Toms, per lb.	25c

STATE NEWS LETTER.

St. Louis, Mo., Dec. 9.—More stringent restrictions on usage of fuel looms for Missouri and other states in the southwestern region unless the coal strike is settled within forty-eight hours. With non-essential industries almost at a standstill and essential industries, including food producers, being hard hit, it was stated at the office of the regional fuel committee that business hours in retail establishments would probably be further shortened during the week, despite protests of numerous retail associations that they be allowed longer hours during the Christmas shopping period.

Flour mills in the St. Louis district are facing a shutdown, it was learned today. A number of large mills in the southern Illinois district are already closed and others are barely edging along on a scant supply of coal. The Imbs mills at Belleville is one of those closed. The Kehlor Flour mills of St. Louis and others have only enough fuel for forty-eight hours, it was learned from officials of the companies.

One official of the Imbs mills stated that there need, however, be no alarm felt over a flour shortage. He declared there was enough flour held by jobbers, retailers and consumers to last three months or more, in this section of Missouri, as everybody had stocked owing to reports of a coming shortage with higher prices. He characterized reports of an expected shortage as propaganda to hoist prices.

Another prominent miller, and an officer of the St. Louis grain exchange, said that there was sufficient flour in the hands of wholesalers and retailers to tide along on for some time, even if the mills were forced to close.

At the office of the regional fuel committee it was stated that every effort was being made to keep the flour mills and other essential concerns supplied with necessary fuel to keep operating, but that the situation was rapidly becoming more serious.

"The home will be given first consideration," it was stated. "No matter what happens, the committee is going to try to keep the people warm. Some merchants and business people have the idea that their profits should be considered first, but the committee is going to keep the people warm and then consider those who want to make money."

St. Louis, Dec. 9.—What is believed to have been an attempt to float large quantities of counterfeit war savings stamps in Missouri was nipped in the bul when federal agents raided an Enright avenue house yesterday, arresting three men and two women whom they had trailed to St. Louis from the East. Large quantities of finished stamps, with a counterfeiting outfit valued by government agents at $3,0,

INDIAN CHILDREN FLOCK TO PUBLIC SCHOOLS.

Ponca City, Okla.—More Ponca Indian children are going regularly to school at the present time than ever before as a result of a recent order from Washington that the parents of the children can draw no annuities unless their offspring are regular attendants at school.

There are now in the rural districts 9 Ponca Indian youngsters in the schools, the enrollments showing that they stack up in number about fifty-fifty with the whites.

Guests at Guinns.

Mrs. Meril Alderman returned last night from a two days visit with Mr. and Mrs. Matt Guinn of Bedison. Roscoe Hupp of Slater, Mo., was a week
